

- **Name:** Sun Woo Kim
 - **Current Position & Affiliation:** CEO / Founder of DEEP BIO, Inc.
 - **Country:** Republic of Korea
-

- **Educational Background:**

- Ph.D Candidate, Computer Science (Sep. 2002 ~ Jul. 2006)
- Concentration: Networked and Embedded Systems University of California, Irvine (UCI)
- Research Topic: Cross-Layer Design for Efficient Energy Savings of the Networked Embedded Systems M.S., Information and Computer Science (Sep. 1999 ~ June 2002)
- Concentration: Computer Systems and Designs (GPA: 3.8/4.0)
- Center for the Embedded Computer Systems (CECS), University of California, Irvine (UCI) B.S., Computer Science (Mar. 1991 ~ Feb. 1994)
- Concentration: Computer Programming and Network (GPA: 86%/100%)
- Korea Advanced Institute of Science and Technology (KAIST)

- **Professional Experience:**

- CEO / Founder: DEEP BIO, Inc. (Oct. 2015 ~ Current)
- CTO / Co-Founder: Pinion Industries Co. Ltd. (Dec. 2013 ~ Apr.2014)
- Deputy Director: KT (Oct. 2009 ~ Nov.2013)
- Senior Manager: NHN Business Platform (May. 2009 ~ Sep. 2009)
- Senior Manager: NHN (Sep. 2008 ~ Apr. 2009)
- Principal Software Engineer: IST International, Inc. (Jul. 2006 ~ Jun. 2008)
- Software Engineer: R&D Division of Softgram Alliance. (Feb. 1999 ~ Jun. 1999)
- Software Engineer: Applied Systems Research at Qnix Computer (Feb. 1995 ~ Mar.1998)
- Software Engineer: Network Group at ETRI (Mar. 1994 ~ Sep. 1994) (part-time)
- Instructor: University of California, Irvine. Advanced Computer Network (2005)
- Research Assistant: Graduate Research Assistant at UCI (Sep. 2003 ~ 2004)
- Teaching Assistant: Teaching Assistant at UCI (Sep. 2002 ~ Aug. 2003)
- Research Assistant: Graduate Research Assistant of CECS at UCI (Sep. 1999 ~ Aug. 2002)

- **Professional Organizations:**

- IEEE/ACM Student Member
- Summer Session Instructor at Bit Computer Education, Seoul, Korea (Aug. 1998)
- Part time researcher of Network Management Center at Electronics and Telecommunications Research Institute, Taejon, Korea (Aug. 1994 ~ Jan. 1995)
Developed Internet applications supporting NNTP/SMTP/FTP in the Unix environment using termcaps and curses C libraries.
- Obtained National Technical Qualification Certificate (Jun. 20. 1994)
- Unix System Administrator and Teaching Assistant of Center for Artificial Intelligence Research in KAIST (1992 ~ 1993)
Terminal Server management and workstation administration.
- Chairman of Network Engineering and Working Society at KAIST (1993 ~ 1994)

15th Annual Meeting of the Korean Society of Medical Oncology & 2022 International Conference

- Unix System Administrator and Teaching Assistant at KAIST Computer Center (1991 ~ 1992)
Unix/ SunOS 4.X/ RS6000/ HP-UX administration.
- Working group member (1991 ~ 1998)
Security and WWW Working Group volunteer member under Academic Network Council, Korea
- Chairman of Special Interest Group, "KAIST Unix Security" (KUS) (1992 ~ 1993)
KUS acted as secretary of Security Working Group of Academic Network Council in Korea. (1991 ~ 1992)
